Trade fair appearance in the city of superlatives

17. January 2019 // **Trade Fairs & Events**

Dubai is a city of superlatives - from the tallest building in the world, the 828 m high Burj Khalifa, the largest shopping center, the Dubai Mall with 1.1 million square meters, to the longest automated and driverless metro network, the Dubai Metro with almost 75 km of tracks. From January 28 to 31, 2019, the Dubai World Trade Center will host the Middle East's largest health and medical trade fair: Arab Health.

Stieglmeyer at Arab Health in Dubai

Dubai is a city of superlatives - from the tallest building in the world, the 828 m high Burj Khalifa, the largest shopping center, the Dubai Mall with 1.1 million square meters, to the longest automated and driverless metro network, the Dubai Metro with almost 75 km of tracks. From January 28 to 31, 2019, the Dubai World Trade Center will host the Middle East's largest health and medical trade fair: Arab Health. In its 44 years, the fair has grown to include more than 4,150 exhibitors and 84,500 visitors from 160 countries.

Of course, Stieglmeyer will also be represented at Arab Health again. After a successful cooperation with our local trading partner Atlas Medical last year, we joined forces again and present our hospital bed Evario at our partner's stand. The ideal bed for all units scores with its adaptability and ease of use. The former will be expanded again this year by offering a variant with optional integrated scales.

We look forward to seeing you at the Dubai World Trade Center at Sheikh Saeed Hall 1, Stand S1.K30.

Visit our stand.  **ARAB HEALTH**
28 - 31 January 2019 | Dubai World Trade Centre

Visit us at Arab Health at the Dubai World Trade Center in Sheikh Saeed Hall 1 at booth S1.K30.
