## Healthy sleep with new mattresses from Stiegmeyer

27. November 2019 // **Products & Services**

High-quality models convince with pressure ulcer protection and excellent flexibility Stiegmeyer beds ensure a high level of comfort in hospitals and nursing homes. Their usually four-section, flexibly adjustable mattress bases allow many comfortable, health-promoting positions. When it comes to comfort and effective prevention of pressure ulcers, the choice of the right mattress also plays an important role. Stiegmeyer offers a range of attractive models so that the bed and mattress can be configured as an individually coordinated unit. We presented three new mattresses at MEDICA.
